

HURRICANE™ TURBINE VENTILATORS

LOCATION:

Northern Beaches Primary School
Sydney, NSW

BUSINESS:

Primary School

TASK:

Designed to provide the most efficient and cost-effective natural ventilation system, Hurricanes were recommended to replace the existing inefficient and non-functioning spherical vane ventilators

SOLUTION:

Installation of 25 X Hurricane™ H500 Ventilators

RESULT:

The Hurricanes are successfully removing hot, stale air from the classrooms. Installing Hurricanes was an effective solution in improving the working environment of students
