

HURRICANE™ TURBINE VENTILATORS

LOCATION:

Amcor Beverage Cans
Rocklea, Queensland

BUSINESS:

Manufactures of aluminium cans

TASK:

Remove the heat that was building up inside the building, excess heat was being generated by plant and equipment.

SOLUTION:

Edmonds recommended the installation of **40 x Hurricane™ H900FR Ventilators** some of which were installed over existing smoke release vents that were no longer working and leaking.

RESULT:

Customer more than happy with end result and very pleased the installation over the old vents solved the leaking.

INSTALLER:

Skyhook Cladding and Ventilation
