

TECHNICAL DATA SHEET 70.

SPARKGUARD

DATE: 13 April 2007

REVISED: 4 February 2009

DESCRIPTION:

Protective mesh that fits onto the flashing plate of Edmonds' ventilators, or for special industrial bases is installed in the throat of the bases, to restrict entry of embers into a building or roof space.

DIMENSIONS:

As required to fit the throat size of the relevant ventilator.

MATERIAL:

Constructed from stainless steel.

MESH APERTURE:

1.8mm , which meets the requirements of AS3959 for installation of product onto roofs in designated fire zone areas.
