

WHIRLWIND

ROOF VENTILATOR

Effectively Releases
Heat and Moisture
From your attic

Now with stainless steel bearings for longer life!

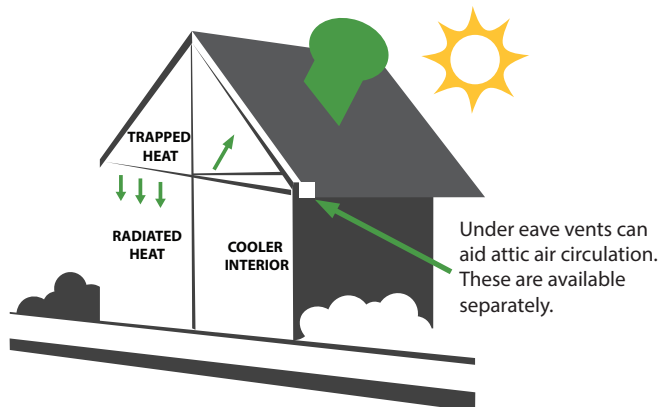

- ✓ Smooth and silent operation.
- ✓ Saves on household energy use.
- ✓ Double riveted vanes for extra strength.
- ✓ Reduces summer temperatures inside the home.
- ✓ Larger vane openings for an improved performance.
- ✓ Low torque stainless steel bearings allow a lower wind speed start up and longer vent life.
- ✓ Complete with variable pitch collar for an easy installation.
- ✓ Thicker 0.6mm Non-corrosive 5052 Marine Grade Aluminium Construction.
- ✓ Helps your insulation and/or airconditioning work more efficiently.

10-YEAR MANUFACTURER'S WARRANTY

WHIRLWIND ROOF VENTILATOR

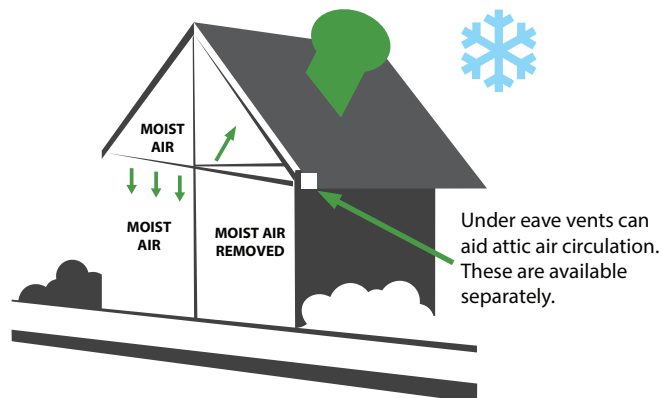

YEAR-LONG BENEFITS

SUMMER

- ✓ Cools your attic space, cools the interior of your home.
- ✓ Removes moisture laden air and prevents mildew.
- ✓ Reduces load on air-conditioning.

WINTER

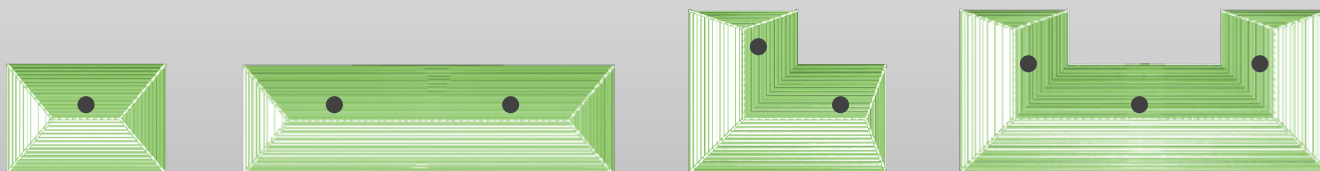

- ✓ Removes damp air, prevents condensation damage.
- ✓ Keeps ceiling insulation dry and effective.

RECOMMENDED VENTILATION LEVELS

If your roof is a regular shape, one vent is sufficient for around 1000ft² (90m²).

ft ²	m ²	No. of Vents
<1000 ft ²	<90	1
1000 - 2000 ft ²	91 - 180	2
2000 - 3000 ft ²	181 - 270	3
4000 ft ²	270+	4+
